

DAY 11 – FILTERING, SORTING & EXPLORING DATA

STEP 1 – Filter Performance Rating

The screenshot displays the Microsoft Excel interface with a data table titled "Employee-Details-Day10". The table has the following columns: Employee ID, Name, Department, Country, Salary, Date of Joining, Performance Rating, Gender, and Email. A filter menu is open for the "Performance Rating" column, showing options to sort and filter. The "Filter" option is selected, and a sub-menu is open showing a list of values: (Select All), 1, 2, 3, 4, 5, and Unknown. The "Unknown" value is unchecked, indicating it is being filtered out.

Employee ID	Name	Department	Country	Salary	Date of Joining	Performance Rating	Gender	Email
EMP1001	Eve Adams	HR	Germany	54255	2016-07-31 00:00:00	1	Other	user106@example.com

EMP1091	Alice Brown	HR	Australia	69420	2016-10-02 00:00:00	1	Male	user43@example.com

OBSERVATION

Observation: The Performance Rating filter was opened and the Unknown value was excluded so that only numeric ratings from 1 to 5 were included for analysis.

DAY 11 – FILTERING, SORTING & EXPLORING DATA

STEP 2 – Sort for Top 5 Performers

The screenshot displays the Microsoft Excel interface with the 'Employee-Details-Day10' workbook open. The 'Data' tab is selected on the ribbon, and the 'Sort & Filter' group is active. The 'Performance Rating' column (G) is sorted in descending order, with the top 5 performers (Rating 5) highlighted in green. The table contains 16 rows of employee data, including Employee ID, Name, Department, Country, Salary, Date of Joining, Performance Rating, Gender, and Email.

45	EMP1116	Bob Johnson	Marketing	Australia	38837	2017-03-26 00:00:00	5	Female	user192@example.com	

OBSERVATION

Observation: The Performance Rating column was sorted from Largest to Smallest. Rating 5 appears first, allowing the Top 5 employee records to be identified.

DAY 11 – FILTERING, SORTING & EXPLORING DATA

STEP 3 – Prepare Bottom 5 Analysis

The screenshot displays the Microsoft Excel interface with a dataset titled "Employee-Details-Day10". The dataset is organized into columns: Employee ID, Name, Department, Country, Salary, Date of Joining, Performance Rating, Gender, and Email. A filter is applied to the "Performance Rating" column, showing a dropdown menu with options: (Select All), 1, 2, 3, 4, 5, and Unknown. The "Unknown" option is unchecked, indicating it is excluded from the current view. The "Performance Rating" column header is highlighted in blue, and the filter dropdown is open, showing the selected options. The "Date of Joining" column is also visible, showing dates for each employee. The "Salary" column shows numerical values. The "Gender" column shows "Male" or "Female". The "Email" column shows email addresses. The "Employee ID" column shows unique identifiers for each employee. The "Name" column shows the full name of each employee. The "Department" column shows the department each employee belongs to. The "Country" column shows the country each employee is from. The "Salary" column shows the salary of each employee. The "Date of Joining" column shows the date each employee joined the company. The "Performance Rating" column shows the performance rating of each employee. The "Gender" column shows the gender of each employee. The "Email" column shows the email address of each employee. The "Employee ID" column shows the unique identifier for each employee. The "Name" column shows the full name of each employee. The "Department" column shows the department each employee belongs to. The "Country" column shows the country each employee is from. The "Salary" column shows the salary of each employee. The "Date of Joining" column shows the date each employee joined the company. The "Performance Rating" column shows the performance rating of each employee. The "Gender" column shows the gender of each employee. The "Email" column shows the email address of each employee.

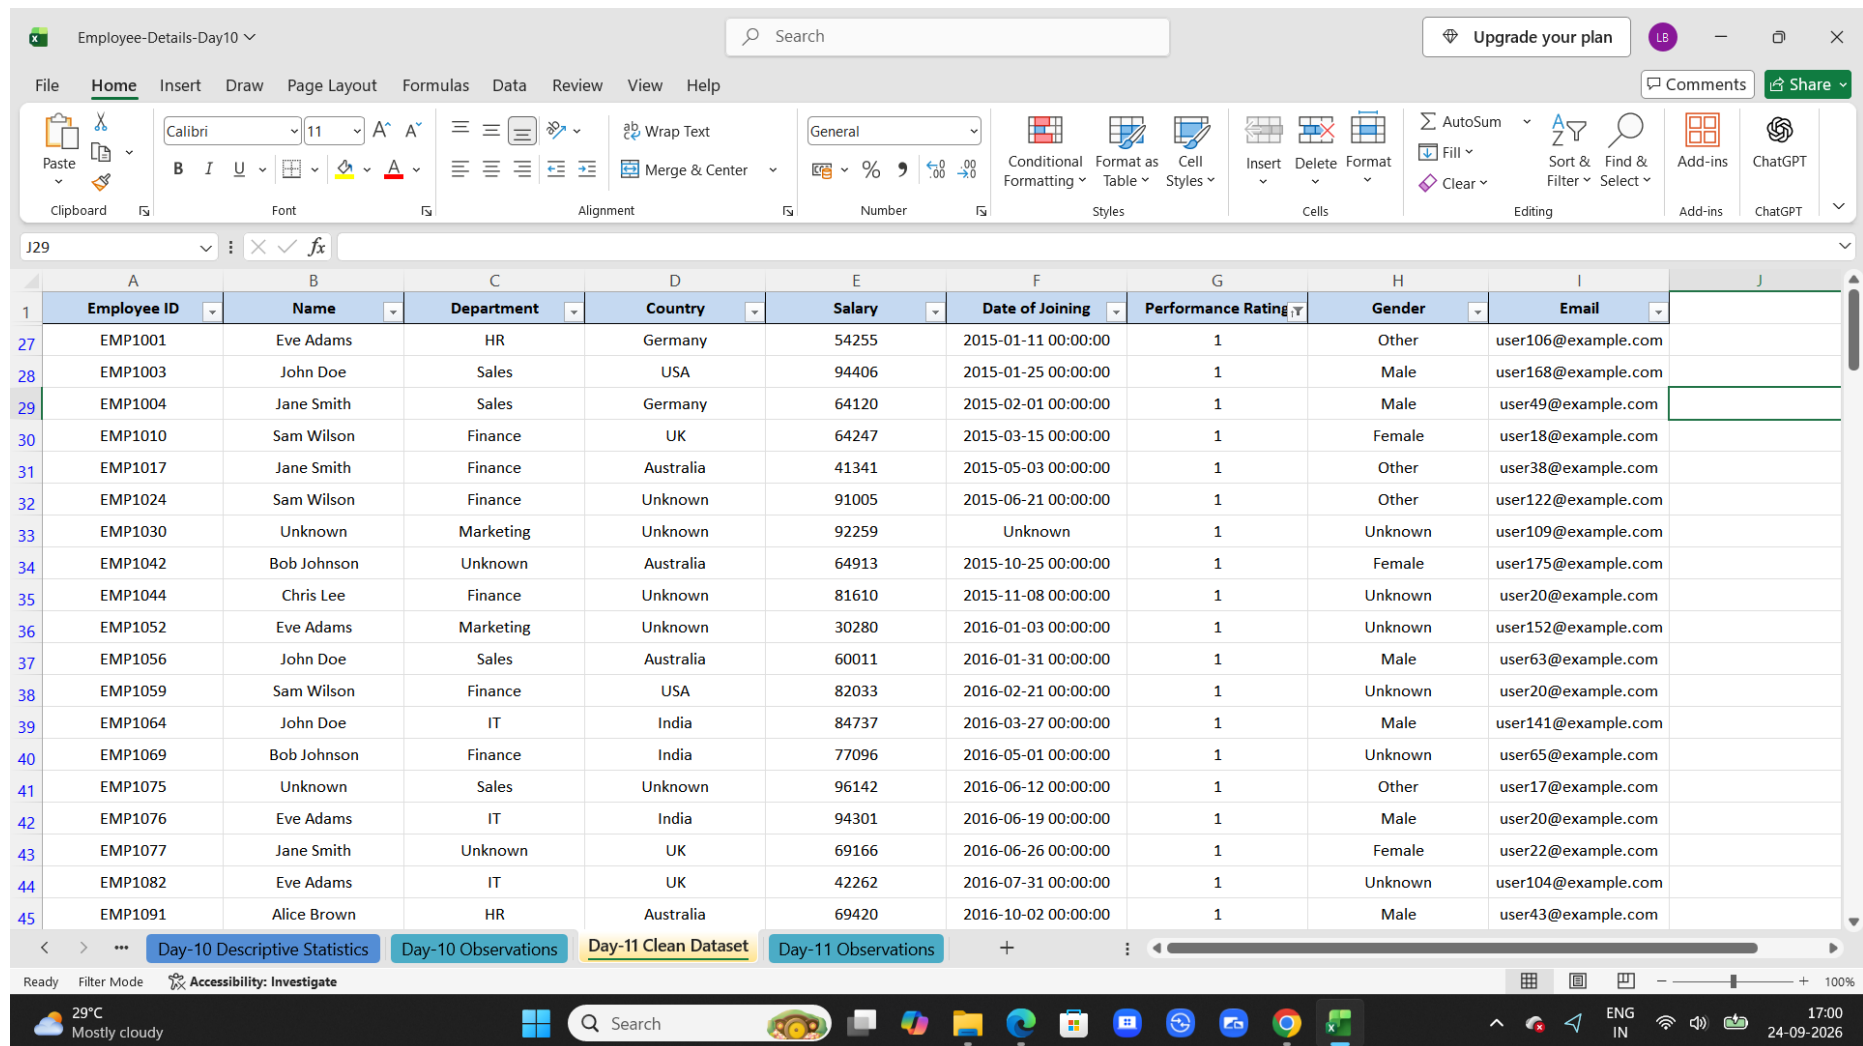

Employee ID	Name	Department	Country	Salary	Date of Joining	Performance Rating	Gender	Email
